10

Diagram 10 illustrates the final assembly steps for the door handle and lock mechanism. The main assembly shows two door panels being aligned. The top panel has a handle (H2) and a lock mechanism (H4) mounted. The bottom panel has a handle (H7) and a lock mechanism (H12) mounted. The lock mechanisms are connected by a bolt (P15) and a lock cylinder (P16). The diagram includes a 90° angle indicator for the lock cylinder and a warning symbol (!) indicating that the door panels should be closed gently.
